

Rotavirus antigen Test Discontinued

As of 02/03/2020 AdventHealth Laboratory Orlando, no longer offers Rotavirus Antigen testing by EIA. The replacement test is the Stool Panel PCR Viral test. Test Code - **STVPCR**.

OLD

**ROTFE – Feces Rotavirus or
Rotavirus Antigen**

NEW

STVPCR – Stool Panel PCR Viral
*– For Norovirus & Rotavirus
targets only.*

**Specimen for all Stool PCR testing
must be collected and stored in
Cary-Blair media! Cary-Blair
samples can be received at:**

- ✓ Room temperature: 48 hours
- ✓ Refrigerated (2-8°C): 7 days
- ✓ Frozen (<10 °C): 30 days

The test is performed Sun - Sat with results posting the same day of testing.

This change is based on 2018 IDSA guidelines due to better specificity/sensitivity of PCR tests.
